**6-12 YEARS**

**2-4 PERSONS-HOURS**

### Product Information

Product type Metal adventure path  
 Certification EN-1176  
 Dimensions 4,3 x 1,1 x 2,2 m  
 (length x width x height)

### Technical Information

Maximum fall height 58 cm  
 Security zone 30 m<sup>2</sup>  
 Number of children 5  
 Concrete required  
 No surface fixation available

### Materials

Metal poles of 127 mm  
 Metal tubes of 34 and 60 mm  
 Polyester-coated metal parts  
 Aluminium and plastic clamps  
 Plastic pole caps  
 Ropes in 16 mm polypropylene rope with steel-wire reinforcement  
 HDPE polyethylene sheet material  
 Round wooden poles 100 mm

### Product Description

Metal playground equipment for children aged 6 to 12. This playground equipment has 2 vertical metal poles with a diameter of 127 mm and connected to each other by means of a red metal tube (diameter 60 mm). At the bottom of the vertical poles 2 ropes are tightened with, at regular distances, a vertical wooden beam. The purpose is to go from one side of the playground equipment to the other by crossing the vertical wooden beams, without touching the soil. All metal parts are treated against rust and polyester coated. All nuts and bolts are completely covered by flower-shaped plastic protection caps.
