Concrete required
No surface fixation available

Materials

Round wooden poles 10 and 12 cm thick
Incorporated rungs 40 mm thick
Round wooden poles in oak for in the ground
Round wooden poles in larch for above the ground

Product Description

Adventurous playground equipment for children aged 4 to 15. The playground equipment is made out of 4 vertical roundwooden larch poles (diameter 12 cm) which are placed in a square in which are supported by 2 smaller roundwooden oak poles with the same diameter. On top, a horizontal roundwooden larch pole (diameter 12 cm) combines the 4 vertical poles. The horizontal pole has ash rungs. Children can climb from one side to the other by using the incorporated rungs. All nuts and bolts are completely covered by plastic protection caps. The oak poles are fixed directly into the ground by using concrete.
