Round wooden poles in oak for in the ground
Round wooden poles in larch for above the ground

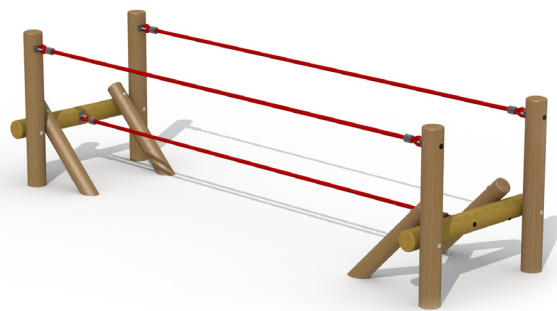

Product Description

Adventurous playground equipment for children aged 4 to 15. The playground equipment is made out of 4 vertical roundwooden oak poles which are placed in a rectangular. The poles are connected to each other on top by 2 ropes (1 on the left, 1 on the right) which are used as support. Below, 1 central rope connects both sides. Children can go from one side to the other by walking over the lower rope while holding the 2 higher ropes. All nuts and bolts are completely covered by plastic protection caps. The oak poles are fixed directly into the ground by using concrete.
