Sheet material and climbing grips in HDPE polyethylene

Technical Information

Maximum fall height	1,30 m
Security zone	26 m ²
Number of children	5
Concrete required	
No surface fixation available	

Product Description

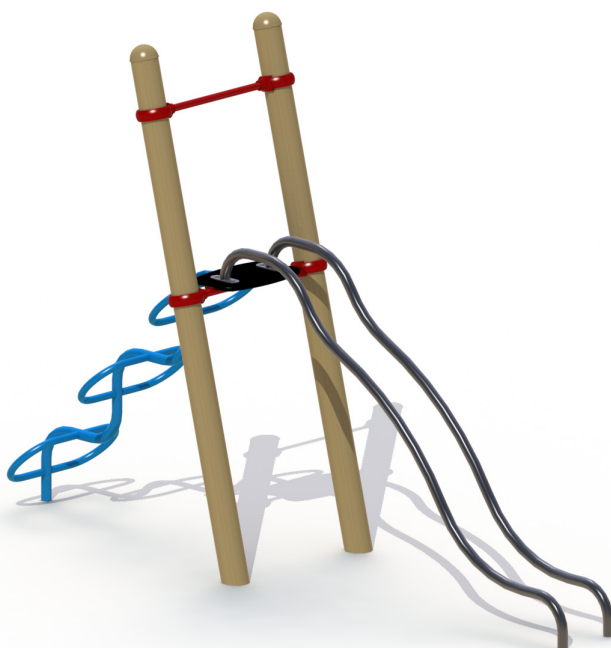

Challenging modern playground equipment for children aged 4 to 12. It is built out of 2 vertical poles to which a metal snake climber and 2 parallel inox sliding tubes (diameter 48 mm). On top of the pioneer there is a platform with non-slip HDPE polyethylene. All metal parts are protected against rust and polyester coated. All nuts and bolts are completely protected. This playground equipment is fixed directly into the ground by using concrete.
