6-15 YEARS

2-11 PERSONS-HOURS

Product Information

Product type	Universe
Certification	EN-1176
Dimensions	7,7 x 5,7 x 2,7 m (length x width x height)

Materials

Metal poles of 127 mm
 Metal tubes 34, 43 and 48 mm
 Metal parts polyester coated
 Inox sliding tube 48 mm
 Aluminium and plastic clamps
 Plastic pole and protection caps
 Sheet material and climbing grips in HDPE polyethylene
 Ropes in 16 mm polypropylene rope with steel-wire reinforcement

Technical Information

Maximum fall height	2,39 m
Security zone	74 m ²
Number of children	35
Concrete required	
No surface fixation available	

Product Description

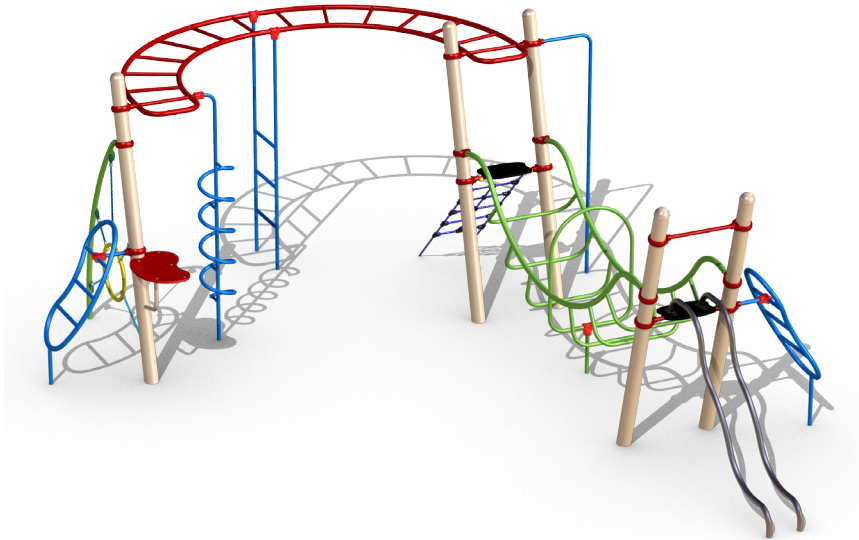

Challenging modern playground equipment for children aged 6 to 15. The Challenger U has several poles with diameter 127 mm. Several playing elements are connected to the horizontal U-shaped ladder with rungs: spiral and straight fireman's pole and a vertical ladder with rungs. At the beginning of the Challenger U you can find a metal bean-shaped ladder, a ring fixed between 5 ropes and a start platform in HDPE polyethylene. The other side of the U-shaped ladder has 4 poles with different climbing and sliding elements. At one side there is a climbing net with on top a platform in HDPE polyethylene. A U-shaped bridge with U-stairs connects the 4 poles. A bean-shaped ladder and 2 sliding tubes (diameter 48 mm) are fixed to the last 2 poles. The sliding tubes start with a platform in HDPE Polyethylene. All metal parts are treated against rust and polyester coated. The playground unit is fixed directly into the ground with concrete.
