- All metal parts are polyester coated
- HDPE polyethylene sheet material
- Ropes in 16 mm polypropylene rope with steel-wire reinforcement
- Stainless-steel slide with HDPE polyethylene sidewalls
- Handles in plastic
- Flower-shaped protection caps
- Galvanized metal base supports

Product Description

Colorful playground equipment for children aged 2 to 6. The playground equipment consists of 3 playhouses with several platforms on different levels that are linked together using an arched bridge and a mushroom bridge with yellow and blue HDPE polyethylene discs. The first part consists of 2 platforms one above the other. The upper platform is at 93 cm height and can be left via a slide with stainless-steel slide plate and HDPE polyethylene edges. The platform can be reached via an easy staircase with metal railings. The platform is equipped with a curved metal balustrade. Below a play floor was arranged. From the upper platform one can go to the lower platform by using the arched bridge with wooden railings. This lower platform has a height of 52 cm and is covered with a roof from rounded colorful HDPE polyethylene panels. It can be reached via a two-fold platform staircase with metal tube railings, a mini-gliss and a HDPE polyethylene climbing arch with wooden climbing grips. From this platform one can go to the other platform by balancing over the mushroom bridge. This platform consists of 2 levels and has a mini-gliss that can be used as railing. Various parts of the playground equipment are equipped with plastic handles that facilitate climbing. The roundwooden larch poles have a diameter of 10 cm and are fixed into or onto the ground using metal base supports.
