Galvanized base supports

 **2-3 PERSONS-HOURS**

Technical Information

Maximum fall height < 1 m
Security zone 26 m²
Number of children 8
Concrete required
Surface fixation available (ref. B)

Product Description

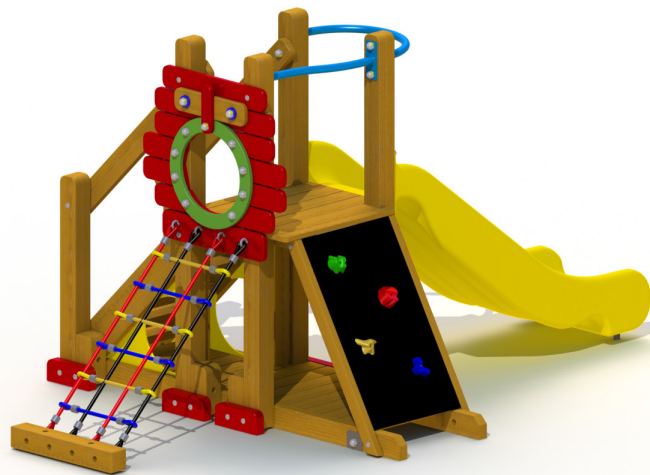

A colorful playground equipment for children aged 2 to 6. It is made out of a wooden floor and 1 platform, on 85 cm. This platform can be reached via an easy accessible staircase, a climbing wall with plastic climbing grips and a colourful climbing net. On the side of the climbing net there is a round entrance through which children can crawl. The platform can be left via a plastic slide. The 9 x 9 cm square posts are fixed into or onto the ground using metal base supports. This playground equipment has oak girders. All metal parts are treated against rust and all nuts and bolts are completely covered with flower-shaped protection caps. The lion's den comes largely assembled with ground fixings and may be placed on grass.
