 Flower-shaped protection caps

Product Description

Playground equipment for children aged 6 to 15. This wooden aerial runway is a fun way to bridge a long distance. The aerial runway has 1 start platform. The children can climb on the start platform and mount on the round rubber seat. This one is attached to the runner by a covered galvanized chain. The children walk from the start platform and slide to the other side while seated on the rubber seat. The roundwooden robinia poles have a diameter of 16 and 18 cm and are fixed into the ground by using metal base supports. All metal parts are treated against rust and all nuts and bolts are completely covered with plastic protection caps.
