Platform boards 35 and 45 mm thick in larch
Round rubber seat on covered galvanized chain
Runner in stainless steel
Rubber mount with spring brake

Product Description

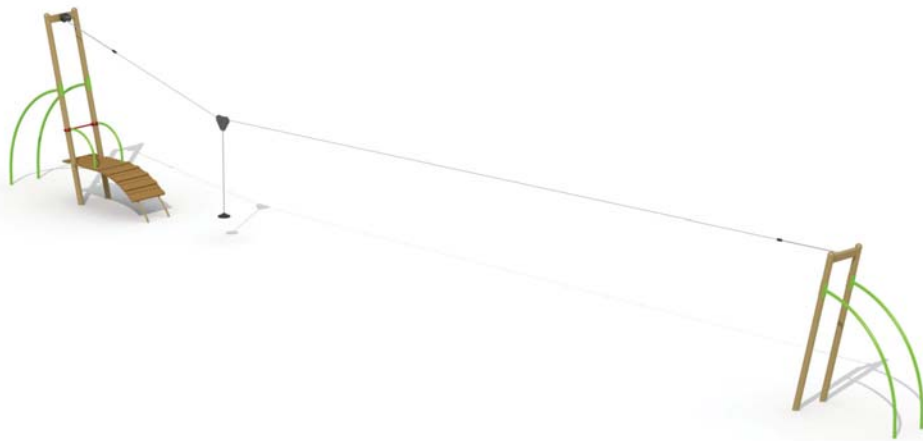

Playground equipment for children aged 6 to 15 years. This metal aerial runway is a fun way to bridge a long distance. The aerial runway has 1 start platform. The children can climb on the start platform and mount on the round rubber seat. This one is attached to the runner by a covered galvanized chain. The children walk from the start platform and slide to the other side while seated on the rubber seat. The polyester coated metal poles have a diameter of 60 and 127 mm and have plastic pole caps. Aluminium mounting clamps are used for the connections. All metal parts are treated against rust and all nuts and bolts are completely covered with protection caps.
