S901

 3-10 YEARS

Product Information

Product type Bouncing and turning
Certification EN-1176
Dimensions 1,4 x H 0,8 m
(length x width x height)

Materials

Metal tubes of 33 and 42 mm diameter are treated against rust and polyester coated
Maintenance-free axes and turning mechanisms
HDPE polyethylene sheet material

 2-3 PERSONS-HOURS

Technical Information

Maximum fall height < 1 m
Security zone 24 m²
Number of children 6
Concrete required
No surface fixation available

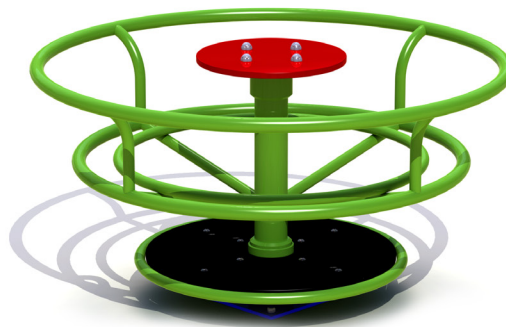

Product Description

Merry-go-round for children from 3 to 10 years. The colourful merry-go-round is made up of polyester-coated metal tubes with a diameter of 33 and 42 mm. The merry-go-round has a circular bench and round handrails made of polyester-coated metal tubes with a diameter of respectively 42 and 33 mm. The metal floor plate is covered by an anti-slip HDPE polyethylene plate. The central steering wheel allows the children to determine the rotation speed. The steering wheel is finished on top with a HDPE polyethylene plate. The merry-go-round rotates on a maintenance-free rotation mechanism with double ball-bearings (below and above). All metal parts are treated against rust and all nuts and bolts are completely covered with flower-shaped protection caps.
